Made possible with student technology fees
in partnership with the Provost and the University Libraries
The University of West Florida Skylab in the John C. Pace Library is a student-oriented 21st century learning space that was constructed with the technology needs of students in mind.

The Skylab consists of a non-traditional computer lab, information literacy classroom, multimedia studio, and media conversion center.

Personal assistance with computer software and hardware is available. Experienced library staff and students are available to assist you with the software and hardware located in the Skylab. Additionally, reference books on the most popular software titles are readily available for use in the Skylab.
